[illegible]

$$t = N\mathbf{1}$$
$$t = \left( \begin{array}{c} \frac{213}{\frac{20}{f84}} \\ \frac{29}{\frac{20}{f84}} \\ \frac{29}{\frac{20}{f84}} \\ \frac{29}{\frac{20}{f84}} \\ \frac{29}{\frac{20}{f84}} \\ \frac{29}{\frac{20}{f84}} \\ \frac{29}{\frac{20}{f24}} \\ \frac{29}{\frac{20}{f01}} \\ \frac{29}{\frac{20}{f24}} \\ \frac{29}{\frac{20}{f01}} \\ \frac{29}{\frac{20}{f24}} \\ \frac{29}{\frac{20}{f01}} \\ \frac{29}{\frac{20}{f24}} \\ \frac{29}{\frac{20}{f01}} \\ \frac{29}{\frac{20}{f24}} \\ \frac{29}{\frac{20}{f01}} \end{array} \right)$$

Finally, we see that  $t_0 = \boxed{\frac{213}{29} \approx 7.345}$
